IMPACT ON LEARNING & TEACHING

The Award provided immediate leverage opportunities involving greater access to the V/C and Deans to share ideas. Support of the Dean, Exec. Dean and V/C allowed Professor Israel to pitch learning and teaching (L&T) ideas. New opportunities have involved gaining an ALTC Fellowship and Discipline Scholar role. Greater access to L&T conferences has introduced him to new people and ideas and assisted him to develop networks and advance his research opportunities and publications. He works strategically to link L&T responsibilities with his research around innovative teaching and L&T policy work.

IMPACT ON CAREER

Extra managerial demands has impacted on his available time to pursue a discipline research career. An Award such as this provides a pathway into a career involving L&T which otherwise is quite difficult to achieve. Fellowships and Discipline Scholar roles build career and research opportunities, however these are often combined with difficult decisions as to where to best put one's energy. Decisions made early-on after the Award can impact on one's future research directions. Choices made early on may impact on one's career directions, promotion, jobs or institutional values and these choices may run counter to one's existing or subsequent KPIs.
