2018 Teacher of the Year Award

Dr Kevin Larkin is a scholarly teacher and educational leader. Based on 30 years of school teaching and school leadership, and six years university teaching and leadership experience, he influences, motivates and inspires our next generation of primary school teachers. His passion for maths, combined with innovative teaching methods, builds positive relationships, improves success and retention, assists pre-service teachers to develop positive attitudes towards maths, and inspires them to become teachers who foster curiosity and independent learning.
