1 INTRODUCTION

The Australian Awards for University Teaching (AAUT) were established in 1997 by the Australian Government to celebrate and reward excellence in university teaching. Since then, with an honour roll that includes many highly respected and celebrated members of the sector, the Australian Awards for University Teaching have become a valued form of recognition for university educators Australia wide.

The Australian Awards for University Teaching recognise the impact that educators have on the learning and teaching experiences and outcomes of university students. They celebrate and reward programs that support students and enhance learning. They promote excellence in learning and teaching in all aspects of higher education. Recipients, with the support of their institutions, contribute to systemic change in learning and teaching through the ongoing sharing and dissemination of knowledge.

This year, AAUT is funded by universities collaboration.

There are five Award types promoting and recognising excellence in learning and teaching. For more information, refer to section 2 Award Types.
